ABOUT THIS PACK

This teaching resource pack has been handpicked by the Teach Starter team to include a range of resources that can be completed at home by children with the assistance of their parents or guardians.

The pack includes resources covering the key learning areas of English, Maths and Science, along with some additional craft and mindfulness activities - all for free!

In the rare event of a school closure or if a student needs to work remotely, this pack can be sent home with students or passed on directly to parents and guardians digitally to allow for students to complete the work with minimal preparation and supervision.

The pack is designed to allow for non-teachers to understand and implement the activities in a home environment without requiring additional resources found in a classroom. The pack can be completed digitally on a tablet/iPad or with pen and paper when printed.

For Teachers

Can I share this pack with parents, students and other teachers?

Of course! This pack has been created specifically for this purpose. Please feel free to share this pack digitally with your students, their parents or guardians, or other teachers.

You can share by copying the URL in the address bar of your browser, or simply clicking on the envelope icon above to send to an email address. You can also download the pack, and email the PDF document itself.

Please feel free to bundle this pack with your own home learning activities to extend or reinforce particular concepts for your students. You may also like to add specific activities such as reading, outdoor play, fine motor skills etc.

For Parents

How can I teach my child if their school closes?

By downloading this free resource pack, you will be equipped with a wide range of activities to share with your child while their school is closed.

We have ensured that this pack can be delivered by non-teachers by providing a helpful table of contents and activity overviews. All activities are age-appropriate and most will relate to work that your child has experienced in the classroom.

The activities can be completed in any order and have been selected to allow parents and guardians to easily implement them.

NURSERY

CONTENTS

English

Alphabet Match-Up

Children need to find the correct picture card and place it on the alphabet template base.

Alphabet Colouring In Sheets

Use these alphabet sheets as a fun colouring in activity when exploring the different letters of the alphabet.

Alphabet Match-Up Cards

Print and cut each of the alphabet letter cards. Children are required to match up the uppercase and lowercase letter of the alphabet. A picture has been added to act as a visual cue.

Maths

All About Circles Mini Booklet

A mini booklet to assist children in recognising and drawing circles. The worksheet easily folds to create a mini booklet about circles.

All About Rectangles Mini Booklet

A mini booklet to assist children in recognising and drawing rectangles. The worksheet easily folds to create a mini booklet about rectangles.

Shape Matching

Use this shape sorting activity to assist children when learning about different shapes. Print and cut out this resource for a hands-on activity suitable for younger children. A great fine motor activity where children sort different 2D shapes into the tummies of the birds.

Fine Motor Skills

Pre-Handwriting Worksheets

A collection of 18 pre-handwriting skill sheets with a range of different techniques and themes. Use this set of pre-handwriting sheets to teach children different handwriting techniques. This activity is great for refining those fine motor skills developed at a young age.

Pre-Writing Pencil Control Tracing Sheets

A set of 4 animal-themed pre-writing tracing worksheets. Use these animal-themed pre-writing worksheets to develop directional pushes and pulls of a pencil. This will help children when they begin to form letters during writing.

Scissor Cutting Skills Strips

A set of 6 different lined strips to assist in developing students' scissor skills. Print these Scissor Cutting Skills Strips to develop your students' fine motor skills. Students are required to cut along the dotted line.

6 x Dinosaur Mazes

A set of 6 fun mazes with a dinosaur theme. Use these dinosaur mazes to help build on your child's fine motor skills. Included are 6 different mazes that increase in complexity to allow you to easily differentiate the activity.

Other

Colour Sorting Activity

A fun sorting activity where children sort and classify a range of different everyday objects by their colour.

Create a Creature – Craft Activity Cut-Outs

A fun, hands-on craft activity using cut out templates to create a creature. Children can choose the body shape and other body parts needed to make a crazy creature. Cut out the template pieces and assemble the creature either on the paper body or on a 3D object such as an empty tissue box. Children can decorate their crazy creatures any way they would like to!

Zany Hairstyle Template

A fun art activity where a drawing needs to be completed. Provide children with this incomplete drawing of a person's head. Children need to add a hairstyle to the head. The hair might be added by drawing or by using mixed media such as ribbons, pipe cleaners, wool, pom poms etc.

Tracing practice for the letter 'a'. The page contains four rows of dotted 'a's for tracing. Each row starts with a vertical arrow pointing upwards, indicating the direction of the stroke. The first row has 8 'a's, the second has 8, the third has 8, and the fourth has 6. Each 'a' is formed by a vertical line and a curved top. The first dot is at the bottom left, and the second dot is at the bottom right of the curve.

Zany Hairstyle

TEMPLATE

Draw and colour a zany hairstyle for this person. Remember that hair can be coloured, plaited, and twisted into different shapes. Maybe the hairstyle will even include unusual objects!
